* Included music is from our extensive commercial library. Custom composed music or ambient background sound design may require an additional fee.

Q - Are you fast?

A - Faster than most, but of course the turnaround time depends on the scope of the project and the availability of the client to review and approve work in progress. For example, a one minute PSA may take a day to schedule in plus another day to produce. Custom background music or completely original sound effects may require additional turnaround time.
